

Server Monitoring & Management

Service Level Agreements (Windows®)

Sensor List

Cisco Device Availability

Monitors the availability of Cisco devices.

CPU Busy

Monitors the CPU busy percentage.

Database Response

Determines the amount of time in milliseconds the system requires to execute a SQL statement.

DHCP Service

Monitors the percentage of addresses free in a DHCP scope, and writes the results to the Heroix eQ performance database.

Disk IO

Monitors disk busy percentage.

Free Storage

Monitors the amount of free storage on logical drives.

IIS Errors

Monitors the number of 404 Page Not Found errors.

Mail Service

Monitors whether email was successfully delivered, as well as the time needed to deliver it.

Page File Space

Monitors the percentage of page file space in use.

Physical Memory

Monitors the percentage of physical memory used.

Proxy Server Performance

Monitors Proxy Server request fulfillment time.

RAS Port Errors

Monitors the rate of total RAS port errors.

Service Uptime

Monitors a user-defined list of critical services.

SMS20 Site Status

Monitors the status of SMS 2.0 sites.

System Response

Determines the amount of time in milliseconds the system requires to execute a simple command.

System Uptime

Writes a system uptime record to the Heroix eQ performance database.

Web Response

Monitors the availability and response time of user-specified Web sites.

WINS Server

Monitors the failure rate of WINS server releases.
